

### **Launch of Skyclass at Rand Airport**

Skyclass bring back the era of classic post-war aviation with its fleet of restored Douglas DC-3 and DC-4 aircraft. The fleet is available for charter locally and regionally. *African Pilot* was invited to take a ride on SAA Historic Flight's immaculate DC-4 ZS AUB around Gauteng on Sunday morning. Together with several other media persons we took off from Rand Airport and headed in a northerly direction. The nostalgic half hour flight was serious fun with cabin crew and pilots dressed in the attire of the 1950s. Our May edition will contain a full report on the efforts of a few dedicated people who are determined to keep historic airliners with round engines flying for years to come. For further information on Skyclass please visit their Website: [www.flyskyclass.com](http://www.flyskyclass.com) Thank you.
